PROPOSALS FOR STATIONERY AND PRINTING.

PICTORIAL HISTORY

DEPARTMENT OF STATE, 4th May, 1843.

In pursuance of the "Act legalizing and making appropriations for such necessary objects as have been usually included in the general appropriation bills without authority of law, and to fix and provide for certain incidental expenses of the Departments and offices of the Government, and for other purposes," approved the 26th August, 1842, sealed proposals will be received at this Department until 3 o'clock, p. m., on the 10th June next, for furnishing such articles of stationery as may be required by it for one year from the 1st day of July next, as enumerated in the subjoined schedule and estimate of quantity; but it is to be understood by persons proposing, that the Department is to be at liberty to take either a less or greater quantity of any article than as specified, according to its wants during the year. Each article to be of the best quality and to be delivered without delay, when ordered.

SCHEDULE. FROM the discovery of America by the Northmen to the present time.—By Jonn Faosr, Professor of Belles Lettres of the High School of Fhiladelphia.—Embellished by upwards of three bundred original cuts, designed by Croome expressly for this work.—Now in progress of publication, and to be completed in twenty monthly numbers, at the unparalleled low price of twenty-five cents each; the whole forming four octavo volumes. whole forming four octave volumes.

A full and copious History of the United States for families and libraries, has long been called for by the American people: the publisher has now the pleasure and satisfaction of presenting to the public such a work. It is the result of years of study and research by one of our ablest writers: and in order that the noble deeds and striking scenes connected with our history may be properly depicted, the publisher has engaged the services of a superior and distinguished artist.

In correction out this undertaking a great investment

"GERMAN IN AMERICA,"

of mammoth size, now the largest paper in the Union. The eighth number will be issued on the 1st of May. Terms: §150 per annum, in advance. Both papers sent to one address for §3 00, in advance. The "German in America" is a paper principally of a literary character, and intended to be an interpreting medium between the literary genius of the Saxon and Angio-Saxon race. It will exhibit some of the best literary product ons, especially poetical, in each language, with parallel versions in the other. To those therefore of the English-American public, who are studying the German language, or wish to become familiar with German literature, this paper is strongly recommended. I contains a complete list of all books, periodicals, etc. published in Germany. Business men who deal, or wish to deal, with the American population of the German tongue, will find it greatly. The same the contiguous South, Canada, and Germany, and by far exceeds that of any other German paper in the Union—its tendency being not of a local, but of a universal character. Besides this, the rates of advertising in both papers are exceedingly low, so as to enable every body to advertis who can be profited by it. Each proposal must be signed by the individual or firm making it, and must specify a price, and but one price, for each and every article contained in the schedule. Should any articles be required, not conumerated, they are to be furnished at the lowest sals will be unsafed after the quality. The proposals to be addressed to "The Department of State," and endorsed "Proposals for Stationery," Notice will be given to the person to whom the contract may be awarded, who will be required within five days thereafter to give bond with two sufficient sureties for its due performance.

The Head of the Department is in all cases to decide whether the terms of the contract have been complied with, and to reject any article which may be, in his opinion, of inferior quality, as well as to annul the contract upon any failure to comply with the terms within a reasonable time.

THE GREAT OBJECT GAINED!

Peters' Medicated Lozenges are the most valuable discovery of the 19th century. They are entirely pleasant to the taste, and more efficient than any other medicine. These Lozenges are the result of long continued and patient investigation, and experiment, conducted in concert by some of the most distinguished physicians in the Union, who believing that some of the best known remedies might be prepared in a palatable form, have directed their labors to that end, till they have produced preparations in the popular form of Lozenges for nearly every disease incident to the human system.

A MERICAN URDWN WINDOW GLASS— manufactured in the village of Redford, county of Clinton, and State of New York. To the Redford Grown, Glass has been awarded

To the Rection Grown Glass has been a vice the first Premium of the American Institute in the city of New York for five successive years, and has received a gold medal i... commendation of its superior merits.

This Glass is made from white fint sand, obtained

This Glass is made from white flint sand, obtained in the vicinity of the works, and is the only Crown Glass made from that species of sand. It is capable of standing every change of climate, not will it lose its lustre by age.

The Resilord and Saranac Crown Window Glass are distinguished from ordinary Glass by the uncommon evenness and beauty of surface, the superior transparency and lightness of color, the great thickness, and the general excellence of the materials which compose them. The surface not being polished after being blown, retains the enamel, brilliancy, and hardness, and is not subject to the objection so often applied to Plate Glass, or being easily defaced and permanently bedinned by dust; being made of extra thickness, will, without injury, withstand violent winds, haif storms, jars of cannon, &c. Its use, in the end, will prove more economical, independent of its adding so much to the beautiful appearance of brildings.

of its adding so much to the beautiful appearance of buildings.

Specimens of this deservedly popular Glass may be seen in the New York Exchange and Custom House, Howard's Hotel, Bionson's Buildings, Broadway, Centre Market, and a great many private residences and stores in various parts of the city; also, in the Exchange and Custom House, Boston; Girard Cotlege, Philadelphia; Exchange Hotel, Baltimore; in the public buildings at Washington city; the Capitol at Raicigh, North Carolina, and in many both public and private edifices throughout the United States. It has been used in a great number of steamboats and railroad cars, and given entire satisfaction. It is be ieved that the above will suffice to prove that this Glass stands pre-eminent, and that it deservedly merits the approbation of builders and consumers of Glass.

The Saranac Crown Glass is most used in stores and buildings of the second order, green houses, &c. where strength and clearness are particularly desired, and will range about 334d per cent. cheaper than Redford. The double thickness is always used for light-houses, and is taken by the true economist for sky lights, steamboats, shipe cabin windows, &c.

Ground Glass for sky lights, churches, and artists' windows, furnished to any pattern or size. The Glass is carefully packed in stout boxes, nailed, and secured so as to be transported with safety to any part of the United States.

For the more complete satisfaction or processed in titue, October, 1837:

"For richness of lister and brilliance of surface, as well as thickness and strength, the Recoord Glass is the mest beautiful article of the kind that has ever fallen under our notice, either ofdomestic or foreign production; and is affords a proud specimen of the skill and enterpiese of American manufactures."

PETERS' VEGETABLE SHILLING
STRENGTHENING PLASTER.
This is not only the cheapest, but the best, neatest and most comfortable plaster in existence.
Peters' Shilling Plaster is an easy and most effective remedy for pain in the breast, side, or stomach, weakness or pain in the chest, loins, or back—stiffness of the neck, affections of the limbs or joints whether the state of the neck, affections of the limbs or joints whether the state of the neck, affections of the limbs or joints whether the state of the neck, affections of the limbs or joints whether the state of the neck, affections of the limbs or joints whether the state of the neck, affections of the limbs or joints whether the state of the neck, affections of the limbs or joints whether the state of the neck is not only the cheapest.

P. S. The above described mines, since the year 1837, have been held, in a measure, unproductive by conflicting claims. I first located confirmed Spanish grants on them, which James Whiteomb, then Commissioner, decided were not confirmed. I then acquired title under Mr. James Thompson, who held by floating pre-emption right; when "Joseph Slater, the agent and tool of an extensive company, proved whether the states of the neck in the state of the period of the period of the neck in the state of the period of the period of the neck in the state of the period of the peri weakness or pain in the chest, loins, or back—stiff ness of the neck, affections of the limbs or joints, whether produced by rheumatism or other causes, habitual pain of the head or stomach, piles, colds, coughs, liver complaints, weakness of the spine, predisposi on to break out in biles and pimples, listless-ness of the frame, and for general debilitation.

Let any person afflicted as above try one of Peters Shilling Plasters, and we will vectore fo say that he could not be prevailed on to discard it again, for ten, or most probably for a hundred dollars. Price twelve and a half cents.
